Fresh, sustainable seafood is at the heart of all we do. From each rope-grown mussel and carefully tended oyster, to every side of gently oak-smoked salmon, we go to great lengths to ensure that the produce on your plates meets the high standards which we have always set ourselves.

All of the seafood prepared and served in our restaurants is sourced from a sustainable supply; either wild or farmed responsibly, and we never serve species considered 'at risk' by the Marine Conservation Society.

With all the care and attention that we take with each and every one of our products, we don't want to keep them secret. Which is why you can now take our beautiful seafood home with you. Check out our freshly stocked fishmongers counter for today's catch.

Ask your server for more details.
